

Dear Kellee,

Thanks for giving CHOICE the opportunity to respond to this Lighting Consultation Regulation Impact Statement (RIS), and access to the webinar which was well received.

After reviewing the papers and webinar, CHOICE would like to see MEPS introduced for LED and the maximum attributable savings for Australia via a lowered energy usage overall.

Option F (Table 1, page 9 of the RIS) with the largest energy saving for Australia would seem the most pragmatic way forward for consumers.

CHOICE is happy for this submission to be published.

Regards,

Matthew Steen
